Lets talk about sweat. Lets talk about our bodies reacting to the temperature. Lets talk about how the temperature is not perfect. How the air holds no humidity. How the world feels different away from direct sunshine. That its a reminder of the impermanent feeling of warmth, on our skin, warped around our shoulders, holding our hand. That warmth fades.

ARIES— March 20 to April 20. is represented by the ram, but it's also often called the newborn baby of the zodiac. Since Aries is the first sign of the season of the entire zodiac year, Aries Season can be a particularly bright time for beginnings — new projects, new jobs, new relationships. Listen to Cardi B while reflecting on your raging impulses for the rest of this season.

#WHAT-
WOULD-
DIANEDO
I was talking
last night
with some
people
about
the
benefits
of being
assertive
and honest
in relation-
ships. It's
essential
to know
what
works
for you—
communi-
cate it
to your
partner(s)
—and
be true
to what
makes
you feel
loved and
respected.
Too much
time can
pass
when
we
sacrifice
parts of
ourselves
in relation-
ships—I
always
encourage
folks to be
as honest
inside and
out as
possible.
